About me

A Graduate Transport Planner at Stantec, with expertise in spatial data analytics, GIS and QUANT. I hold an MSc from the Bartlett, University College London and a BSc from the University of Manchester. I am experienced in processing and analysing complex datasets, producing clear visualisation, and translating findings into evidence-based recommendations. I am committed to applying digital urban analytics in navigating complexities and delivering well-informed and inclusive long-term solutions to address challenges.

Education

University College London, Bartlett Centre for Advanced Spatial Analysis (CASA)

London, U.K.

Master of Science - MSc, Urban Spatial Science (now Urban and Spatial Data Science) *2025-2026*

- Royal Geographical Society (with IBG) Accredited
- Dissertation: Assessing Spatial Equity in Multimodal Accessibility to Cooling-Effective Urban Green Spaces, A Case Study of London
- Specialisation in Big Data, Urban Modelling and Simulation: Urban Systems Theory; Geographic Information Systems and Science; Quantitative Methods; Foundations of Spatial Data Science; Data Science for Spatial Systems; Agent-based Modelling for Spatial Systems; Building Spatial Applications with Big Data; Remotely Sensing Cities and Environments.

University of Manchester

Manchester, U.K.

Bachelor of Science - BSc, Planning and Real Estate *2022-2025*

- RICS Accredited, RTPI Partially (Spatial) Accredited
- Second Class with Honours, Division One (2.1)
- Dissertation: Explore The Role of Vertical Greenery Systems in Enhancing Urban Energy Efficiency in Dense Urban Areas, Strategies for Hong Kong.
- Developed a strong understanding in urban theories, policies and application of planning law principles to real world case studies. Gained practical experiences in valuation and appraisal analyses, plan-making, and applied development projects incorporating spatial analyses, developed data analytics skills to support evidence-based decision-making approaches in urban design and research.

Tsinghua University

China

Global Summer School *2022*
